I'm a Mobile Application Developer with 2 years of experience as Full-time programmer and Freelance at the same time. I've experience with Android Native development using Kotlin and multi-platform mobile application using Flutter and React Native framework. Not just working in the technical field, I'm also a coding teacher for High School and College Students. Mostly I teach material about Front-end Development like Websites and Mobile Apps.

Work Experiences

PT. Stechoq Robotika Indonesia - Yogyakarta, Indonesia

Jun 2026 - Present

Freelance - Frontend Developer (Website)

- Develop website based application using Vue 3 and TailwindCSS.
- Transform UI/UX designs into responsive, user-friendly applications that function optimally across all devices and browsers.
- Collaboration with designers and back-end developers to build client-side features, seamlessly integrate APIs, and ensure overall performance.
- Maintenance the ongoing system, which includes rigorous testing, debugging, resolving front-end issues.
- Improve existing features, and drafting clear technical documentation for the implementation.

Timedoor Academy Indonesia - Bali, Indonesia (Remote)

Jul 2023 - Jan 2025

Part-time - Coding Teacher

- Responsible for explaining the concept of Basic Programming, Front-End Website and Mobile Application development coding to High-School and College Student.
- Guide students to solve problems with coding paradigm and share my experiences as a Mobile Application Developer.

PT. Timedoor Indonesia - Bali, Indonesia

Sep 2022 - Jul 2024

Full-time - Mobile Application Developer

- Develop mobile applications using React Native Framework, Flutter Framework and Native Android App using Kotlin as based coding language.
- Maintenance past projects, where I need to understand legacy code from previous developers to improve the App's features.
- Collaborate with UI/UX Designer and Backend Developer to integrate API and realize application design.

TechX - Jakarta, Indonesia (Remote)

Nov 2022 - Jul 2024

Freelance - Flutter Mobile Developer

- Develop new features and maintain the existing application using Flutter Framework.
- Collaborate with Backend developer and existing Flutter developer to provide new features.

Teach4Hope by KitaBisa.com - Bali, Indonesia

Mar 2024 - May 2024

Freelance - Frontend Developer Mentor

- Responsible to teach and guide student about Frontend Website Development using Vue Framework.
- Give assessment and feedback to student's project.

Bank Sampah Desa Gunaksa - Bali, Indonesia

Jul 2022 - Oct 2022

Freelance - Flutter Mobile Developer

- Develop a mobile application using Flutter framework to manage household waste in a village.
- Create features for user to store their household wastes and exchange waste points with money.

Education Level

Universitas Gadjah Mada - Yogyakarta, Indonesia

Aug 2024 - Jul 2026 (Expected)

Master of Engineering in Information Technology, 3.88/4.00

- Oral Presenter at IEEE TrustCom International Conference 2025 at Guiyang, China.
- Mentor and Judge at Bootcamp TETI Mobile Development 2025 & 2026.
- Research assistant on the topic of Federated Learning.

Universitas Udayana - Bali, Indonesia

Aug 2018 - Aug 2022

Bachelor of Information Technology, 3.69/4.00

- Research assistant on the topic of Load Balancing in Mikrotik.
- Mobile Development Student at Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka 2021
- Lab assistant for algorithm, networking, and mobile development subjects.

Skills, Achievements & Other Experience

- **Basic Kotlin Programming Course** 🎓 (2021): Basic knowledge of Kotlin programming, including syntax, data types, control flow, and object-oriented programming concepts. This certification demonstrates proficiency in using Kotlin for Android development and other applications.
- **Android Application Fundamental Course** 🎓 (2021): Fundamental knowledge of Android application development, including UI design, application lifecycle, navigation, networking, and design pattern. This certification demonstrates the ability to create functional Android applications using best practices and industry standards.
- **Android Developer Expert Course** 🎓 (2021): Broad knowledge of Android application development with an expert development standard. Focusing more on the implementation of clean architecture, reactive programming, dependency injection, and performance optimization. This certification demonstrates the ability to create high-quality Android applications that are maintainable, scalable, and efficient.
- **Javascript Programming Course** 🎓 (2022): Basic knowledge of JavaScript programming, including syntax, data types, control flow, functions, and object-oriented programming concepts. This certification demonstrates proficiency in using JavaScript for web development and other applications.
- **React Programming Course** 🎓 (2022): Basic knowledge of React programming, including components, state management, hooks, and routing. This certification demonstrates proficiency in building dynamic and interactive web applications using React.
- **HTML & CSS Programming Course** 🎓 (2022): Basic knowledge of HTML and CSS programming, including syntax, selectors, layout, and responsive design. This certification demonstrates proficiency in creating visually appealing and user-friendly web pages.
- **SOLID Principles in Object-Oriented Programming Course** 🎓 (2024): Understanding of SOLID principles in object-oriented programming, including single responsibility, open-closed, Liskov substitution, interface segregation, and dependency inversion. This certification demonstrates the ability to apply SOLID principles to create maintainable and scalable software solutions.
- **Spec-Driven Development (SDD) with Kiro AI Course** 🎓 (2026): Fresh knowledge of Spec-Driven Development (SDD) using Kiro AI as an AI Agent, including understanding the principles of SDD, utilizing Kiro AI for generating specifications, and applying SDD practices in software development. This certification demonstrates proficiency in leveraging Kiro AI to enhance the software development process through effective specification-driven approaches.
